## KR2S

**Speed, economy  
& range plus  
many premolded  
parts.**

Designed for the first time  
builder:

- Utilizing wood, foam and fiberglass construction
- No hot wiring required
- KR2S premolded parts are made of high temperature epoxy based prepreps and all high temperature core materials
- These parts are vacuum bagged and oven cured
- Premolded parts greatly speed construction time, approximately 800 hours
